♥Heart shaped♥ floss drops/Thread holders. Designed in part by my wife to her specifications.

There is a large hole toward the tip of the heart to allow for large amounts of DMC thread to be looped through. The two smaller holes are for partially used threads.

There is also a keyring hole for easy organisation.

Finally there is space for a small label (approx 10mm x 6mm) to write the thread colour ID number.

About the model

- Prints with NO supports!
