This is a new take on @crazybilly's Quilting Clamp. These clips can be used to keep rolled-up portions of your quilt tidy and out of the way as you work!

The outside of the band is reinforced to allow springiness but retain shape. Interior ribs grab onto your rolled up fabric.

Three sizes are available: 60, 80, and 100 cm diameters.

Printed using PLA, no supports or brim, though you might find a brim helpful depending on your bed adhesion.

This remix is based on
